Frontend Developer

SUMMARY:

I am a junior React.js developer with a strong passion for front-end development. My experience includes building responsive and interactive web applications, collaborating with team members to meet project requirements, and continuously learning and adapting to new technologies and best practices.

PROFESSIONAL SKILLS:

Proficient in React.js:

Experienced in developing user interfaces using React.js, including state management, routing, and component lifecycle.

HTML/CSS:

Skilled in creating responsive and visually appealing web pages using HTML5 and CSS3, including CSS preprocessors like SASS or LESS.

Team Collaboration:

Experience working in collaborative environments, with excellent communication and interpersonal skills..

JavaScript:

Strong understanding of core JavaScript concepts and ES6+ features, with the ability to write clean, maintainable code.

Problem Solving:

Capable of analyzing problems and implementing effective solutions, with a strong attention to detail.

WORK EXPERIENCE:

Junior ReactJs Developer

Smartfun Studios Limited – Sep 2023 – Present

- At Smartfun Studios Limited, I had the opportunity to work as a Junior React.js developer, where I was involved in developing and maintaining front-end components for various web applications. I collaborated with senior developers to implement new features, fix bugs, and improve the overall user experience.
 - Focused on learning new skills and staying updated with industry changes.
-

EDUCATION:

Bachelor's Degree in Computer Science- September 2023

University of Sargodha, Sargodha Punjab, Pakistan
